

Our Song

“[NCE68+50](#)”

v3.1 July 24, 2018

Some years ago, We all went to Northcote.
Although strangers, We got along quite well.
Two-year lecture(s), And many parties too!
Student practice(s), We sure survived them all!

Somehow ... We all graduated!
Somehow ... We became teachers all!

Decades later, Thanks to the Internet,
Reconnected, We feel like good old time!
While together, We celebrate our past.
Deep in our hearts, We thank our Lucky Star!

- - - - - (bridge) Instrumental  - - - - -

Who'd have guess'd, We entered N - T - C,
When we came out, We hail'd from N - C - E ?
Timid and shy, We quickly got transform'd.
Open but firm, We gladly bond'd for life!

Someday ... We'll face the world alone.
Someday ... We'll never walk alone!

Let's raise a glass, A toast to our friendship!
All inspired, We pledge for our future!
Capture the day, It's a wonderful life!
Now - forever We cherish auld lang syne!
